If an applicant can qualify in both the resident and child of staff categories, he/she has a better chance of being awarded in the resident category. More scholarships are awarded in the resident category than in the child of staff category. An applicant will not be awarded a scholarship in both categories. If you qualify in both the resident and child of staff categories and you have questions about this please contact me.

Contact your agency for help with this process if needed. They have access to the applications and may be able to help with submitting the applications. .
